

TRIVENETA SISTEMI

Kit Base - DSP Standard+AL2

COD. 001 D

DSP LASER TX + RX B211

DSP emits a **visible laser barrier** which, made and placed as described in the EN12622 standard, **protects the press brake operator** against the risk of being crushed between the upper and lower part during the closing of the fold in high speed.

Module AL2 is an electronic module whose logic has been planned to **monitor and manage the systems and components present on a press brake** to ensure the safety of the bending process itself according to the EN12622 standard.

MODULO AL2 230Vac

TRIVENETA IMPIANTI S.r.l.
